

# Celebrate MAY 12!

## Message from AOWM members

Mathematics is beautiful! Make friends in mathematics and enjoy mathematics together! 数学は美しい! ぜひ仲間を見つけて一緒に楽しみましょう!

Yukari Ito

I hope everyone will discover new possibilities and support one another through mathematics. 수학을 통해 새로운 가능성을 발견하고 서로를 격려할 수 있기를 바랍니다

Eunjeong Lee

Keep exploring, inspiring, and breaking barriers. Patuloy na magsaliksik, magbigay-inspirasyon, at basagin ang mga hadlang. #WomenInMathematics

Angie Lao

Mathematics is the language of knowledge and contributes to the development of culture. Keep up the spirit, everyone! Happy Celebrating Women in Mathematics!

Budi Nurani Ruchjana

May everyone have the courage to explore the unknown beauty of the universe

颜文斌 (Wenbin Yan)

Mathematics opens worlds of opportunities, enjoy them!

Melissa Tacy

Mathematics is the gateway and key to all sciences. Get to know mathematics and enjoy it!

Zohreh Mostaghim

Mathematics is a powerful and universal tool for understanding the world. Stay curious, have fun, and enjoy the journey of discovery!

Suchada Pongprasert

Mathematics is my life and it is beautiful. May you enjoy and love Mathematics as I do!

Riddhi Shah

Life is always fun with math in it. May everyone have the opportunity to find a space where they can experience the joy of doing math.

Destiny S. Lutero

If deeply understanding even a small math idea brings you joy, then you are already a mathematician, and mathematics will make you feel at home anywhere

Umida Baltaeva

Mathematics is the language that turns patterns into understanding and ideas into discovery

Rajinder Sharma

A young mathematician is not someone who knows all the answers, but someone brave enough to keep asking beautiful questions.

Lama Tarsissi

Keep your curiosity and courage in the universe of mathematics, explore infinite possibilities with wisdom, and write a brilliant chapter of your own passion!

Wenjiao Yan (彦文娇)

Embrace the beauty of mathematics and explore the unknown. Together, let's work toward our dreams.

Yng-Ing Lee

The joy of mathematics connects people, transcending borders, backgrounds, and eras. 数学の喜びは、国境や属性や時代を超えて、人と人を繋いでくれます!

Makiko Sasada

There is a quiet joy in knowing. 知ることは楽しい。

Shihoko Ishii

Doing mathematics is a wonderful way to deepen one's thinking and to enrich one's reflection - an important quality that distinguishes human beings from robots

Thi Ha Duong Phan

I love those moments of discovery and insight that only people who keep studying mathematics can experience. I hope you will get to experience them too.

Maki Nakasuji

People think mathematics is cold. But to me, it is full of sincerity, patience, and the loveliest people I've ever met.

Thi Hoai An Ta

Mathematics knows no boundaries. Your ideas, your perspective, and your insights are not only welcome—they are essential. To be connected.

Motoko Kotani

Mathematics never ceases to amaze me.

Lynne Nocon

Life and mathematics are alike, difficult at first, but clearer once you understand the patterns and solutions. Keep going.

Racquel Bandong

Mathematics knows no boundaries, no limits and no gender. It belongs to everyone.

Editha Jose

Mathematics is the language of nature. I love to dive into its depths and explore its beauty. You can also do this !!

Jyoti U. Devkota

We are all free and curious. Let's ignite our inner universe through mathematics. 我們都是自由而好奇的。讓我們透過數學，點燃自己的小宇宙。

River Chiang

The difficulty of finding and solving problems is never yours alone, and neither is the joy that comes with it.

SoonYi Kang

Mathematics is a journey of persistence and beauty. Never doubt your place. Keep exploring, keep questioning, and shape the world with your unique perspective!

Nan-Kuo Ho
